

Internal Quality Assurance Cell (IQAC)

STUDENTS' FEEDBACK ANALYSIS FOR THE ACADEMIC YEAR 2018-19

Collecting feedback from students plays a crucial role in IQAC's efforts to improve the quality of education. Student feedback allows educational institutions and faculty members to assess courses and curriculum delivery, to foster a comprehensive learning experience. Student feedback and engagement actively contribute to the development of holistic education in the college.

Every year, at the end of the even semester, feedback forms are distributed to students. The AAA Cell & IQAC manage the circulation, distribution, and collection of these forms.

Objectives of Students' feedback:

Collecting feedback from parents has three main objectives:

1. Evaluate the University's curriculum, instructional methods, and syllabi.
2. Evaluate student response to library, book, digital, and infrastructure resources, including teaching aids.
3. Collect comments on the institution's impact on student career preparedness.

Focus of the Students' Feedback Form

The Students' feedback form focuses on the following issues:

1. The overall curriculum was competent to equip you in the field.
2. The objectives and outcomes stated for the programme are helpful.
3. The curriculum is up to date with latest developments in technology and research in the field.
4. The sequence of the courses that you have studied in the programme is satisfactory.

5. The LMS and online aids used in the teaching-learning process are effective.
6. The methodology employed by the faculty is appropriate for the curriculum.
7. The size of syllabus in terms of the load on the student is satisfactory
8. Tests and examinations have been conducted well in time with proper coverage of all units in the curriculum.
9. The current syllabus equips you for opportunities in terms of employability such as Jobs, Services and an Entrepreneurial attitude.

Analysis of Student feedback:

- 1) The analysis indicates that 32 students are satisfied with the course handout's effectiveness, 119 students agree with the teacher's knowledge and syllabus, and 10 students disagree.
- 2) 124 students were satisfied with the presentation, which helped them prepare for semester exams with accurate syllabus-related questions. Additionally, 37

students agreed on the appropriate communication skills and exam preparation questions.

Analysis on counseling feedback

- 1) According to the college counsellor analysis, 64 students found it extremely beneficial, 35 replied positively, and 62 did not feel the necessity.
- 2) According to the data, 105 students were satisfied with their counsellors' encouragement and assistance, 43 agreed, and 11 raised worry.
- 3) Students rated the counsellor as effective, with 113 responding well, 29% responding excellent, and only 17 expressing concern for improvement.

Recommendations

1. Improve student access to the library during and after college hours, and repair desktop systems.
2. Several students grumbled about the college app's inefficiency and expressed dissatisfaction with the SMS issued to parents for hourly attendance.
3. Some suggestions for app upgrades and functionality, such as assigning tasks ahead of time via the IRP. The 75% required attendance regulation was widely criticized.
4. Ensuring rich learning environments for kids requires teachers to enhance their skills and foster learning cultures.
